Image: Image Source / PhotoDisc / getty images As in every language, Spanish speakers have a wide range of fluences. Even native speakers, people who have learned Spanish as a first language, vary widely into their knowledge of the language. Many speakers learned Spanish at home but have never learned the grammar and official spelling. Others may have learned Spanish at school and acquired all formal Spanish, but when it comes to surviving an informal conversation, they can also speak Chinese. Á, where are you in your linguistic journey? Travel with a dictionary or are you looking for words on your phone every two sentences? Dreams in Spanish? Some say that when you start dreaming in a foreign language, you reach a higher level of fluidity, you start to elaborate information in the new language unconsciously. Opens a portal in the culture that gave rise to the language. Since the tongue and culture are so intertwined, acquiring mastery allows you to enter into a culture in ways that are blocked to you if you don't speak the language. Heat a large non-stick pan and add some pieces of chicken, skin side down. When the skin has become deep golden, mix to brown on all sides. Remove to a plate and remaining brown pieces. Add the onion, pepper and chorizo to the pan and fry over medium heat for 5-10min until the onion is golden and soft and the chorizo brown on the edges. Mix in garlic and paprika and cook for 1min. Return the potted chicken with tomatoes, rice (the key is to use Spanish paella rice, but if you can't find it, use a risotto, which has a round grain) and 750ml (11 pints) boiling water. Bring to a simmer, cover tightly and bake for 30min or until all the liquid has been absorbed and the rice is just tender. Mix in prawns and peas; cover and bake for 5 minutes until heat through. Condition, topping, then serve immediately with lemon wedges to squeeze over. Whether you're planning to travel to a Spanish-speaking country, want to communicate better with a native speaker or just want to broaden your language horizons, it would be great if you could go all-in and learn some Spanish for free. And you can: A program called Duolingo has made it possible to do just that. After downloading this app to your smartphone or logging into the Duolingo website after creating an account, you can start learning Spanish for free in just a few minutes. But what exactly makes this educational tool so effective? Learn more about the program, including how á and why á it works, before you try it out for yourself. Once you create a free account and select the new language you want to learn, Duolingo will start on a "learning tree" which contains several lessons Specification categories. "You have decided to learn Spanish. During the first first During the lessons, you will start with the mastery of Spanish words easy to learn in categories as days of the week, greetings and colors. Once the lesson has been learned, you will start earning «crowns» that unlock more advanced levels. Photo Courtesy: Duolingo / YouTube The Duolingo approach combines images, audio and printed words to help the mind create multiple connections between images, sounds and spelling of each word that learns. No matter what your particular learning style is, Doolingo makes you easy to start mastering a new language thanks to the ways involving your different senses. Among its other strengths, Doolingo presents you quizzes in a variety of formats. For some quizzes, compare every Spanish word with the English one, while in others the program says the word and asks you to repeat it in the microphone of your device. This also helps to strengthen your learning both in visual and auditory ways. If you are locked, there is a built-in language dictionary you can use to reveal the meaning of every word of a sentence. Depending on your final goals, Doolingo can really work. If you are looking to build solid foundations to learn a language or want to improve your basic vocabulary, this app is a great tool. Duolingo makes it easy to learn Spanish and other words. However, it will not make you flowing in a language Á «The app simply does not offer sufficient opportunities to learn the most profound syntax or to practice realistic conversations. In a study by Michigan State University, the participants spent a university semester studying Turkish, and then supported the regular exam for the Turkish class 101 in person. While all participants have learned from the most words of vocabulary of those who knew at the beginning, Á «No one was able to use language in a very communicative way.á € Photo Courtesy: Duolingo / YouTube one of one of the Beautiful things about Doolingo, though, is his interactivity. Not only will you introduce you to new words as your ability to grow, but you will see new words transformed into phrases with words learned in previous lessons to help you pass in more and more difficult words and concepts. If you are looking for more addictive experience to listen to more examples of language in action, Doolingo also offers stories and podcasts in different languages. Unlike simply learning a new language from a book, you can hear the mother tongue use the words you are learning, but in the form of conversation or otherwise. It is also worth a look at Duolingo YouTube channel, where you will find things like Duo Songs that characterize native speakers that sing songs in their languages. Do you want to learn another language in addition to Spanish? Consult the opinions of users on the courses that have the property you prefer. Spanish, French and English have the advantage offer podcasts, while Spanish, Italian, Portuguese, French and German offer stories. Photo courtesy of Duolingo/YouTube Duolingo ha ha halts programs at the top of time, so some of the courses are further developed and more complete than others. Your success with the courses (and what you could decide to choose) also depends on what your mother tongue is, since many of the previous courses have been designed for English or Spanish native speakers. That being said, Doolingo works constantly to maintain its courses. Visit your incubator page to find out if there is currently a course in the development you can help contribute and see what you came soon. Everything from English to the Romanian speakers in Navajo for the English speakers is in the works, and if you don't see more courses to take right now, it is possible that you will find the languages you are looking for in search of Doolingo in the future. Before Doolingo, linguistic software tended to be on the most expensive side. While the programs like Rosetta Stone and open English are still fantastic ways to learn new languages from home comfort, these and other courses that teach you the foundations of Spanish may not be the most economical options for you. While part of his appeal is that he is free to use, Doolingo is not without competitors when it comes to the effectiveness of his teaching, be. Programs like Babel, Busuu and Fluentu may also like you. Photo of courtesy: Fluentuttu / YouTube in many ways, Babel is similar to Doolingo, except that requires a monthly subscription fee. During the use of similar techniques to teach users their language of choice, Babel does not include any ad and has a format less players in Doolingo. Busuu is another payment subscription program that is gaining popularity. While Doolingo helps you learn using mother-tongue recordings and feedback in the form of audio quiz, Busuu is designed to make learning more social. While learning new abilities, you will be able to receive feedback from other users around the world that you already talk about the language you are learning. Fluentu takes a different approach to traditional language lessons giving access to a series of videos of the real world, such as the movie trailers, music videos and news broadcasts, in the language you are trying to learn. While requesting a monthly subscription, it is an interesting concept and could be something to examine, especially after learning the foundations of your new language or if you are looking for something that feels more immersive. Immersive.
